

Bernajean Porter, [DigiTales](#) Creator and educational consultant presented at the DCSD “Spark for change” conference held in June 2011. She shared this easy to use rubric for discussing the effective use of technology.

Reflect- How is the tech being used?

Knowing we spend millions on digital tools, software, apps and infrastructure, **what is our Return on Learning (RoL)?**

We want the level of student usage to be HOTS- higher order thinking to transform learning. This means students are producers of products to share and show their learning.

# Learning Spectrum
